Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Thursday 19 Aug 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Rather cloudy. Showers at first. Rain in west for Friday.

This Evening and Tonight:
Showers, some heavy with a risk of thunder, across central, eastern and some southern parts of England fading, with many areas dry but rather cloudy overnight. Still a few areas of mainly light rain, mainly in the west and north.

Friday:
Many areas dry, central and southern parts probably seeing some warm sunny intervals. However rain, some heavy, already over western Northern Ireland, will spread to some other northwestern areas later.

Outlook for Saturday to Monday:
Unsettled with rain and showers for most over the weekend, heavy and persistent in places. Gradually turning more settled from the west through Monday. Warm but humid, with light winds.
